

CHEM-E-CAR POSTER PRESENTATION COMPETITION

9 AUGUST 2022

The competition is opened to students of the institutions of higher learning to present their Chem-E-Car design based on the criteria set in the Malaysia Chem-E-Car Competition **Rules and Regulation 2022 v1** as follows:

1. Description of the chemical reactions, power source (15 marks) and stopping mechanism (15 marks).
2. Design creativity and unique features of the vehicle, including the strategy to score a “goal” or hit the bowling pins when momentum is transferred from the car to the ball (20 marks).
3. Environmental (5 marks) and safety features (5 marks).
4. Economic aspects (5 marks).
5. Quality of the presentation (15 marks).
6. Q&A (20 marks).

A maximum 10-minutes Q&A will be conducted for top 10 finalist.
